

GETTING EVERYONE ON THE \$AME PAGE: *Preparing For The Municipal Budgeting Process*

With the many changes affecting Municipal budgets, the upcoming budgeting season may seem like a daunting chore. Dreading this important task might have your staff worried, stressed out and feeling anxious about what lies ahead.

What if we could help create a smoother, more productive budgeting experience for your municipality?

This unique, half-day team training is specifically designed to open communication and improve decision-making, in preparation for the municipal budgeting process.

HAVE YOU EVER WONDERED WHY;

- ▶ Some people get right to the point while others feel the need to elaborate?
- ▶ Some people make decisions quickly while others ask plenty of questions before deciding?
 - ▶ Some people focus on the process while others choose to focus on the end result?
 - ▶ Some people give opinions openly while others wait to be specifically asked?

By better understanding ourselves and others, we improve every aspect of group dynamics. Getting everyone on the same page involves giving your team a perspective from which to appreciate different approaches to communication and decision-making, and a recognition of the strengths that each members brings to the table and to the budgeting process.

Book this team training today, to ensure your municipality gets the most out of yours and your staff's time and effort this budgeting season.

*This training workshop can be delivered as a 2-hr or 2.5 hr session, and can include a half hour Q & A period.

**Now booking for September, October and November 2019 training dates.
